

*do you want
cream and sugar
with that?*

Keany Produce & Gourmet offers a wide variety of dairy products, oils, nuts, and more, crafted by skilled artisans both local and domestic.

Consumers are constantly altering their taste preferences based on the latest trends in the marketplace. At Keany, our Gourmet team works diligently to source these products to you and ultimately your valuable customers.

We offer the perfect pairings for the coffee aficionados that you service. With this, you can offer locally-sourced dairy creamers and milk, organic agave nectar to replace unhealthy table sugars, and provide healthy, non-dairy alternatives for your customers.

Trickling Springs Creamery

Trickling Springs Creamery was founded in 2001 by two friends whose aim was to produce fresh, exceptional-tasting dairy products while promoting local farmers. They created strict guidelines for their farm partners, requiring to maintain grass-fed, heritage breed cows, produce very clean milk, and use no synthetic hormones. Currently, they are partnered with 32 family farms across Pennsylvania.

WHOLE MILK (#30072)
SKIM MILK (#30083)
HALF AND HALF MILK (#30087)

All of Trickling Springs' products are minimally processed using low-temperature pasteurization, simple ingredients, and no additives to the whole milk and creams.

Wholesome Sweeteners

Wholesome Sweeteners are produced exclusively from organically grown and processed Blue Agave. The sweet juice is pressed from the plant's piña (or core), then collected, heated, cleaned, and bottled. A natural time and temperature process transforms the agave nectar into organic, unrefined syrup with a high level of natural fructose. Compared to table sugar, organic blue agave is slowly absorbed into the body preventing spikes in blood sugar. Wholesome Sweeteners are Fair Trade Certified which guarantees the consumer a fair price has been paid directly to the jimadors (agave farmers) who produced this product.

ORGANIC BLUE AGAVE

Pacific Foods Barista Series

The Barista Series from Pacific Foods are plant-based beverages made for coffee. These non-dairy beverages are specifically made for use with coffee since they can tolerate high heat, has subtle flavors, and smooth texture. Each variety offering can withstand the heat from steaming, does not curdle with hot coffee, and also mixes well with cold brew and iced coffees, too. New non-dairy milk types spark excitement as consumers look to diversify their selection.

All the beverage varieties are dairy-free, vegan, gluten-free, kosher, and go great with all coffee. The soy beverage contains 5g of protein per serving, and is great with chai and vanilla lattes. The almond beverage is perfect for cappuccinos. The coconut beverage makes an amazing mocha. In addition to coffee, these non-dairy alternatives are great for smoothies, baking, soups, and various other creative recipes.
